

DEVELOPMENTAL AND CLINICAL CHILD PSYCHOLOGY MA PROGRAMME AT EÖTVÖS LORÁND UNIVERSITY

Developmental and Clinical Child Psychology MA Programme: provides up-to-date knowledge on typical and atypical development. The experts of our clinical fields and research groups train the students to apply their knowledge to real-world practice. We prepare students to be able to start to work in clinical institution treating children and/or to do research as PhD students.

RESEARCH GROUPS AND WORKSHOPS

- Applied Developmental Psychology Research Group
- Developmental Psychophysiology Research Group
- Social Minds Research Group
- Childhood Mental Disorders Research Group

ABOUT ELTE

With a growing reputation for research and innovation, Eötvös Loránd University (ELTE - the longest continuously serving university of Hungary), offers its diverse student population high quality education and research, building upon the best European traditions. The mission of ELTE is to preserve and enrich national and universal culture, to cultivate science and to pass on academic knowledge.

THE DEVELOPMENTAL AND CLINICAL CHILD PSYCHOLOGY MA PROGRAMME IS INTENDED FOR:

- the student who wants to acquire up-to-date knowledge on typical and atypical development as well as methodical skills in clinical and research work with children
- the student who intends to continue her/his studies towards:
 - postgraduate specialisation in clinical child psychology, educational psychology or counselling psychology
 - PhD studies
